

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

BIENNIAL REPORT

OF THE

Railroad Commissioner

OF THE

STATE OF WISCONSIN

For the Fiscal Years ending June 30, 1897 and 1898.

MADISON, WISCONSIN:

DEMOCRAT PRINTING COMPANY, STATE PRINTER,
1899.

PERSONNEL OF OFFICE.

DUNCAN J. MCKENZIE,	COMMISSIONER.
CHARLES A. COON,	DEPUTY COMMISSIONER.
WILLIAM A OWENS,	MESSENGER.

ROBERT GORDON CHASE
VOLUME

EIGHTH BIENNIAL REPORT

OF THE

RAILROAD COMMISSIONER.

STATE OF WISCONSIN,
Office of the Railroad Commissioner,
Madison, Wisconsin, December, 1898.

HON. EDWARD SCOFIELD,
Governor of Wisconsin:

The Railroad Commissioner herewith submits his biennial report for the years ending June 30, 1897, and June 30, 1898, being the eighth biennial report of this department. The several railroads of the state have filed their reports and the same have been tabulated by this department in such a way as was thought would best subserve the interests of the public. To one, however, who is a seeker after facts, the reports and tabulations will afford meager satisfaction, as many items are omitted and others are made by estimate. Estimates are made in two ways, i. e., arbitrary or on a mileage basis, and neither is satisfactory to one who seeks the truth.

MILEAGE.

There has been a healthy increase in railway mileage in the State during the last two years, as will be seen from the following:

No. of miles in operation June 30, 1896	6,093.31
No. of miles in operation, June 30, 1898.....	6,284.16
Increase in two years	190.85

General Report.

This increase is made up as follows:

Mileage of new roads.....	60.80
Mileage of old roads, increase.....	137.04
Total.....	197.84
Decrease in mileage, old roads.....	6.99
Total net increase, since June 30, 1896.....	190.85

NEW ROADS

Reporting since the last biennial report are:

Chicago and Lake Superior.
 Dunbar and Wausaukee.
 Hazelhurst and Southeastern.
 Marinette, Tomahawk and Western.
 West Range.
 Whitcomb and Morris.

CHANGES

Have been made in roads reported June 30, 1896, as follows:

The Milwaukee, Bay View and Chicago is now the Chicago, Lake Shore and Eastern.

The Duluth and Winnipeg is now the Duluth, Superior and Western.

The Chicago, Fairchild and Eau Claire River is now the Fairchild and Northeastern.

The Green Bay, Winona and St. Paul is now the Green Bay and Western.

The Port Edwards, Centralia and Northern is now the Marshfield and Southeastern.

The Wisconsin and Chippewa road reported in 1896, has become a part of the new road known as the Marinette, Tomahawk and Western.

EARNINGS, EXPENSES AND DIVIDENDS.

Dividends declared in Wisconsin for the year ending June 30, 1898.....	\$2,901,242 82
Gross earnings in Wisconsin for the year ending June 30, 1898.....	34,578,349 16
Gross expenses in Wisconsin for the year ending June 30, 1898.....	21,394,683 20
Income from operation.....	13,183,665 96

General Report.

Comparing with the report of June 30, 1896, we find the following:

Increase in dividends, '98 over '96.....	\$235,091	22
Increase in earnings, '98 over '96.....	1,002,378	19
Increase in expenses, '98 over '96.....	1,404,073	21
Decrease in net earnings, '98 under '96.....	401,695	02

DEATHS AND INJURIES.

The following is a summary of deaths and injuries from railway accidents during the biennial period just closed:

1897.

Employees.....Killed,	34Injured,	211
Passengers	3	25
Others.....	93	84
Total	130	320

1898.

Employees.....Killed,	55Injured,	265
Passengers	3	13
Others	123	93
Total	191	371

Total for Period.

Employees.....Killed,	89Injured,	476
Passengers	6	38
Others.....	216	177
Total	311	691

Total killed or injured during the biennial period, 1,002.

A comparison of these items with the same items for the year ending June 30, 1896, shows an increase of deaths of 55, and an increase in the number of injured of 90. The increase in deaths is in the column known as "Others" and

General Report.

is an increase of 57, as there is a decrease in the death column of the two classes "Employees" and "Passengers" of 2.

The injury columns, however, do not show as well, the increase of '98 over '96 being as follows:

Employees	58
Passengers	16
Others	16
Total	<u>90</u>

Ninety of the deaths and injuries reported, occurred at railway crossings. There is a movement in some of the states to change the present method of grade crossings by either elevating the tracks or depressing the road way. There is no doubt but what this would be a great convenience, not only to the public but also to the railway lines.

COMPILATION OF LAWS.

Nearly every day requests come to this office for a pamphlet compilation of the railroad laws of the state. No such pamphlet has been printed since 1889. The insurance laws, the election laws, the laws of assessment and collection of taxes, are all gotten out in a proper form and distributed gratis to the public. None of these are of more importance to the people in general than the railroad laws, and some provision should be made for their publication in pamphlet form.

CAR FERRIES.

I wish to call attention to what I believe is an important matter to the people of the state. There has grown up within the last two years a system of freight carriage known as car ferries. These car ferries are operated from Milwaukee, Manitowoc, Kewaunee and Peshtigo to points in Michigan and Illinois, and so far as I am able to ascertain

General Report.

each system is owned and controlled by a corporation foreign to Wisconsin, and they contribute nothing whatever in the way of a license or tax to this state. I am informed that these car ferries handle during the year more than one million tons of freight. Taking the minimum distance traveled this means the transportation of 40,000,000 tons of freight for one mile. The constitution of the state places the boundary line of Wisconsin in the center of Lake Michigan. If this freight was not handled by boats it would necessarily have to go over the iron roads either north by the "Soo" or south into the state of Illinois. I believe there is a question here of importance to the people.

REPORT OF RAILROADS.

The northern part of this state has many railroads known as logging roads. The most of these roads were in the first place built with the intention of using them wholly as private roads for the hauling in of logs for manufacturing purposes. Gradually they drift away from the intention of the original builder and become common carriers. Under the present law it is almost impossible to detect them. Several have come to the surface during the last two years, their discovery being entirely accidental. I believe it would be to the best interests of the people if a law was enacted compelling every railroad, public or private, to make a report to the Railroad Commissioner. He will then be able to determine whether or not they come under the head of common carriers. And in order that this department might have a fair start I would suggest that a law be enacted requiring the assessor in each assessing district in the state of Wisconsin to report, on blanks to be furnished him by the Secretary of State, the name and location of each railroad, whether public or private, in his district. This would enable the Railroad Commissioner to keep a check upon the roads and see that none escape.

General Report.

I would also suggest that a record be transcribed from the records in the Secretary of State's office, embracing the organization of all railroads in the state, with all amendments to the same, and that the same be made a part of the Railroad Commissioner's office; and that from and after a date to be fixed the railroads in this state incorporating or amending their articles be required to file with the railroad commissioner a duplicate set of such incorporating articles or amendments.

MAPS.

One great item of expense in this department is the railroad maps. The number of maps has been increased to 25,000, of which 22,000 are mounted. The cost of the present map has increased very materially over the one issued four years ago, in as much as it has been increased in size one-fifth and much more work has been put upon its face in the way of an endeavor to show correctly sectional and county lines and the location of streams, rivers and lakes, so that now the cost of the edition will approximate \$10,000. It seems to me that it would be better that these maps be printed under the direction of the Railroad Commissioner and sold to the public at actual cost. The 8,000 maps given to the Superintendent of Public Instruction are distributed among the school districts of the state. This has been an occurrence of every two years. The life of a map is longer than two years, and the material change in the railroad lines some years has not been sufficient to warrant the issuance of a new map in place of the old one. The department should have some discretion in this matter and it might result in a saving to the tax payers.

LICENSES.

The present law does not seem to equitably distribute the burden of licenses upon the railroad corporations of the

General Report.

state, and your attention is called to the following as showing how the law operates:

Under the license law of the state pertaining to railroads five classes are created:

1ST CLASS.

Aggregate cost.....	\$275,013,114
Gross earnings	30,947,248
Tax, 4 per cent. of gross earnings	1,238,140
Tax, 45/100 of 1 per cent. of cost.	

2ND CLASS.

3½ per cent. of gross earnings	None.
--------------------------------------	-------

3RD CLASS.

3 per cent. of gross earnings	
Aggregate cost.....	\$1,071,432
Gross earnings	100,193
3 per cent.	3,004
Tax, 28/100 of 1 per cent. of cost.....	

4TH CLASS.

\$5.00 per mile and 2½ per cent. on all earnings over \$1,500 per mile up to \$2,000 per mile.

Cost	\$11,506,940
Gross earnings	551,510
Tax	4,644
Tax, 83/100 of 1 per cent. of gross earnings	
Tax, 4½/100 of 1 per cent. of cost.	

5TH CLASS.

\$5.00 per mile on all roads earning less than \$1,500 per mile.

Cost	\$15,521,504
Gross earnings	467,669
Tax, 59/100 of 1 per cent. of gross earnings.	
Tax, 1-8/10/100 of 1 per cent. of cost.	

In considering this last class of roads six roads report no cost, and they have not been taken in the calculation.

General Report.

SUMMARY.

1st class pays 4 per cent. of its gross earnings, 45/100 of 1 per cent. of its cost.

2nd class, none.

3rd class, 3 per cent. of its gross earnings, 28/100 of 1 per cent. of its cost.

4th class, 83/100 of 1 per cent. of its gross earnings, 4-1/3/100 of 1 per cent. of its cost.

5th class, 59/100 of 1 per cent. of its gross earnings, 1-8/10/100 of 1 per cent. of its cost.

The Winona Bridge Company is taxed under a separate class and pays 2 per cent. of its gross earnings.

Cost.....	\$241,000
-----------	-----------

Gross earnings.....	10,642
---------------------	--------

Tax.....	212
----------	-----

Tax, 8-8/10/1000 of 1 per cent. of its cost.

The smaller roads are not necessarily the "smallest" paying ones and your attention is called to the following which pertain to two roads in the fifth class.

DUNBAR & WAUSAUKEE.

13-1/2 miles.....	Tax, \$67.50
-------------------	--------------

Cost.....	\$77,000
-----------	----------

Gross earnings..\$20,126	or 26 per cent. of cost.
--------------------------	--------------------------

Net earnings.... 14,286	or 18 per cent. of cost.
-------------------------	--------------------------

Tax..... 67.50	or 8-8/10/100 of 1 per cent. of cost.
----------------	---------------------------------------

Tax..... 67.50	or 33-5/10/100 of 1 per cent. of gross earnings.
----------------	--

Tax..... 67.50	or 47-2/7/100 of 1 per cent. of net earnings.
----------------	---

HAZELHURST & S. E.

17 miles.....	Tax, \$85 00
---------------	--------------

Cost.....	\$101,331
-----------	-----------

Gross earnings..... 25,241	or 25 per cent. of cost.
----------------------------	--------------------------

Net earnings..... 11,650	or 11 per cent. of cost.
--------------------------	--------------------------

Tax, \$85.00 or 8-4/10/100 of 1 per cent. of cost.

Tax, \$85.00 or 33-1/3/100 of 1 per cent. of gross earnings.

Tax, \$85.00 or 73/100 of 1 per cent. of net earnings

General Report.

The workings of the present license law is well illustrated by taking the following roads:

Had the Green Bay and Western earned.....	\$450,000
in place of	442,390
Making an increase in earnings of.....	7,610
its license would have been.....	13,500
in place of	3,745
or an increase of	9,755
Had the Kewaunee, G. B. & W. earned	\$73,400
in place of	72,083
Making an increase in earnings of.....	1,317
its license would have been	2,202
in place or	609
or an increase of.....	1,593
Had the N. W. Coal Ry. Co. earned.....	\$39,230
in place of.....	37,108
an increase of earnings of.....	2,122
its tax would have been.....	1,176
in place of.....	290
or an increase of	876
Taking these roads as a whole an increase in the earnings of....	11,049
would have made an increase in the license of.....	11,224

A license law that permits such results cannot be justified.

SLEEPING-CAR LICENSE.

It is unnecessary for this department at this time to say anything regarding the matter of sleeping-car license. It is well known that the sleeping-car companies contribute but little toward paying the expenses of the state; and as the Executive of the state and the members of the legislature alike seem of one opinion, that is, to increase the license of these companies, it is not necessary to say more.

INSPECTION OF ROADS.

During the two years past all of the railroad lines of the state have been inspected by the Commissioner or his Deputy. The people of the state are to be congratulated upon the good condition of the various railroad systems.

General Report.

Each company is making progress as rapidly as possible in the way of replacing wooden bridges with iron and steel structures, and by taking up the old iron rails and replacing them with heavy steel ones. The large lines have also made material changes in road beds, and a system of double tracks have been inaugurated which without doubt will gradually be extended.

INTER-LOCKING PLANTS.

During the four years ending June 30, 1898, 19 interlocking plants have been installed by the various roads, and passed upon by this department. These plants are a safeguard to the public and it would be well to inaugurate a system to extend the building of them wherever it is possible.

COMPLAINTS.

During the last two years 36 complaints have been received and were disposed of as follows:

Sent to the Inter-State Commerce Commission	3
Settled	12
Withdrawn	2
No cause	9
Pending	10

In all cases settled, the companies yielded to the demands of the complainant. The most frequent cause of complaint from the public is the lack of accommodations and connections at junctional points. It seems as though there was a study on the part of some of the railway systems in the state to avoid making connections rather than to make them. While it would be impossible for the roads to make connections at all junctional points they could do much better than they are doing.

General Report.

CONCLUSION.

The official relations between this department and the general officers of the railroad lines of the state have been of the most pleasant nature and I believe conducive of good results to the people. I am firmly of the opinion, however, that Wisconsin should take a place in the ranks of those states of the Union who have railroad matters looked after by a commission vested with much more power than is given this department. Electric roads are fast becoming a popular method of transportation and the state should take immediate steps to place these lines under supervision of this department, in so far at least as to compel reports to be made, as statistics gathered will be of value to the people in the future. I close by making the following recommendations:

Have the maps published by this department sold at cost.

Supply school districts once in four years in the discretion of this department.

Provide for a compilation of the railroad laws of the state.

Make all railroads, public or private, report to this department.

Make the assessor in each assessing district report to this department the names of all railroads located in his district.

Have the records in the office of the Secretary of State, pertaining to railroads, transcribed for the use of this department, and provide for the filing of duplicate copies in this department of all papers pertaining to railroad incorporations.

Investigate the car ferry system.

Make a uniform license rate for all railroads.

Compel all street car lines to make a report to this department.

General Report.

Extend the general powers of this department or create a commission with more power than is now possessed by the department.

Respectfully submitted,

D. J. MCKENZIE,
Railroad Commissioner.

Attest:

CHAS. A. COON,
Deputy Commissioner.
